

Confirmation of compatibility with residual current devices Type A (RCD)

Manufacturer name and address **KACO new energy GmbH**
 Carl-Zeiss-Straße 1
 74172 Neckarsulm, Germany

Product description **Photovoltaic grid-tied inverter**

Type description

blueplanet 3.0 TL1 M1 - INT	blueplanet 5.0 TL3 - INT
blueplanet 3.0 TL1 - INT	blueplanet 6.5 TL3 - INT
blueplanet 3.5 TL1 - INT	blueplanet 7.5 TL3 - INT
blueplanet 3.7 TL1 - INT	blueplanet 9.0 TL3 - INT
blueplanet 4.0 TL1 - INT	
blueplanet 4.6 TL1 - INT	

The inverter of the above series may under normal or single fault conditions not feed in any DC fault currents. For this reason residual current circuit breakers **type A** are suitable for use in systems with inverters of the above series, in accordance with IEC DIN EN 62109-1 7.3.8.

Any unauthorised modifications to the supplied devices and/or any use of the devices that is contrary to their intended purposes shall render this certification null and void.

Neckarsulm, 19/01/2015
 KACO new energy GmbH
